Mr. David Walden,  
Federal Probation Officer  
85 Marconi Blvd.  
Columbus, OH 43215

Re: United States v. Bistline

Dear David:

As we discussed some weeks ago, you have been gathering additional information which was not in the initial pre-sentence report. I was hoping that you would provide those updates before the final report. For example, you had little information about Mr. Bistline's wife's medical issues and had not yet done a home visit and had not spoken with all of his children..

Also, as we discussed, there is a major inaccuracy in the description of the type of material (child pornography) possessed by defendant. (PSIR ¶ 14). As you will recall, you did not review any of the movies he had. It took me a while to be able to re-install that material on a computer and review it. There are more than 50 videos of varying lengths. A very few were less than a minute long, but most were 3 minutes long and longer. Several were 15 minutes to 20 minutes long. The names are as set forth in the attached document from the forensic report. Many of the names are quite explicit. In most cases, the material in the video matches the description; although, there are some where the content is not at all consistent with the name.

The content includes rape of pre-pubescent girls and many include sexual contact between adults and children between age 6 to 13 year olds. At least one involved sexual acts between boys ages approximately 7 and 11 and many involved sexually explicit content between young girls. One 20 minute video involved bestiality.

I am assuming that the inaccuracy in the description of the images impacted your sentencing recommendation. Hopefully, this additional information will result in a sentencing recommendation more in line with sentences of other similarly situated defendants.

I have not yet received the actual names of the victims from the Florida agent, but hope to get that next week. If there are victim statements on file, I will provide the statements as I am obligated to do so.

Finally, your work history for Mr. Bistline was somewhat limited. I am attaching a copy of his resume. Of concern is his education as a teacher, then his limited time spent teaching. In child pornography cases, it is of greater concern when the defendant spent time working with children. Given the fact that Mr. Bistline left teaching after only seven years and never returned to it, it seems important to check with that school system regarding the circumstances under which Mr. Bistline left. Your initial report indicated that verification of employment with various employers was pending so perhaps you already have that information.

Please call if you have any questions.

Very truly yours,

GREGORY G. LOCKHART  
United States Attorney
